* The total area of the State according to the settlement just (1907) completed is 469,431 Acres i.e., 4,817 Acres less than that shown previously; for the reason that whereas the whole of the area of the *Maksudi* and *Tājpurā* villages which are in joint possession of Bājgarh and Narsinghgarh was previously included in the area of this State now only half their area which equals 350 Acres is retained, and the area under dispute between villages in connection with boundary disputes which was counted twice over previously has now, that the disputes are settled, been counted only once. 1,099 Acres, the area of the village of *Barwan* previously included under *Khālsā*, has in the Settlement been transferred to Jāgīr. *Barwan* is a Jāgīr village under State supervision on account of its being heavily encumbered and the question of its redemption is under consideration by the Darbār.

† Of the 120 Jāgīr villages 79 are held in Jāgīr by Jāgīrdārs who pay *Turkāna* or tribute to the State, 29 villages are in possession of *Ranis*, widows of the late Rājā Partāp Singh, and 12 villages are allotted rent free for the support of temples.
